

GOAL 10

TESTING

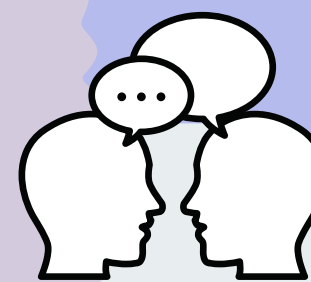

- The Community Equity Hub will be launched to a wider audience and monitored using data on usage pattern.
- Regular feedback loops and iterative improvements ensuring effectiveness of the app.

PROTOTYPE

- Integrate responsive design principles to ensure usability across different devices.
- User interfaces for features like skill-sharing forums, job marketplaces and resource centre.

EMPATHIZE

- It involves in-depth conversations, interviews and surveys from diverse backgrounds and communities.
- The platform was created to address immediate concerns and maintain user privacy.

DESIGN THINKING APPLIED TO REDUCED INEQUALITY
